Distributor Tools

Safety Line Newsletter

Safety Line Newsletter is now available to all MCRSafety.com distributors. You can now view this quarter's newsletter where you can read about the latest in Safety, the latest market trends concerning our industry, products and more.

On-line Product Training

On-line Product Training is now available to MCR Safety distributors. You can now view our available training modules at **MCR Safety's training website**. A username and password is required to access the training modules, so new users will need to **request a login**.

Product Reference Library

MCR Safety distributors may now access our on-line **Product Reference Library**. PRL is a comprehensive collection of information on all the products we offer. It is accessible using powerful search tool that allows our distributors to find products by searching for features, styles, colors and much more. A username and password is required to access the PRL, so new users will need to **request a login** to proceed.

Permeation Guide

MCR Safety's Glove Permeation Guide will help you determine the proper hand protection for handling chemicals. You can find the proper hand protection by searching for a chemical by its CAS number. We even provide detail information on the chemicals too! A login is required to access this information.

Product Image Library

We are currently working on the image server and the new image database should be ready soon. If you have any questions, please contact your sales representative.

Look What's New!

Rubicon™

A new trend setting design from Crews.

Seven lens options to choose from in a stylish metal frame with spring hinged temples.
