BJ238CH

FR Gear

Specification Sheet

PRODUCT DESCRIPTION:

Big Jake's reputation for hard working gloves has now been extended to our garment line. The Big Jake II series is flame resistant and made of PVC / Nomex material, very similar to the original Big Jake Rainwear. However, the Big Jake 2 is lighter and offers a higher calorie rating than its predecessor. The BJ238CH 49 Inch coat features a sturdy zipper front with snap over flaps, oversized attached adjustable drawstring hood, stand up collar, adjustable hook and loop wrist closures, and two front patch pockets. The fluorescent lime background material and two inch silver reflective stripes meet ANSI 107 Class 3 requirements for high visibility protection. It also meets the ASTM F1891 Standard Specification for Arc and Flame Resistant Rainwear and ASTM F2733 Standard Specification for Flame-Resistant Rainwear for Protection against Flame Hazards. The BJ238CH achieves an HRC2 / CAT2 ARC rating with an Arc Thermal Performance Value (ATPV) of 11 cal/cm². Be seen and be safe in MCR Safety's Big Jake Hi-Vis FR rainwear.

FEATURES:

- Flame resistant PVC / Nomex 49 Inch raincoat
- Meets ANSI 107 Class 3 High Visibility Standards
- Conforms to ASTM F1891 Standard Specification for Arc and Flame Resistant Rainwear
- Meets ASTM F2733 Standard Specification for Flame-Resistant Rainwear for Protection Against Flame Hazards
- NFPA 70E with an Arc Thermal Performance Value (ATPV) of 11 cal/cm²
- Sturdy zipper front with large snap over flaps
- Two inch Silver FR reflective stripes
- Two front patch pockets
- Adjustable / oversized attached hideaway drawstring hood
- Standup collar for added protection
- Adjustable hook and loop wrist closures
