BJ238JH

Rainwear

Specification Sheet

PRODUCT DESCRIPTION:

Big Jake's reputation for hard working gloves has now been extended to our garment line. The Big Jake II series is flame resistant and made of PVC / Nomex® material, very similar to the original Big Jake Rainwear. However, the Big Jake 2 is lighter and offers a higher calorie rating than its predecessor.

The BJ238JH jacket features a sturdy zipper front, oversized attached adjustable drawstring hood, adjustable hook and loop wrist closures, two front patch pockets and a cape vented back with D-Ring access. The fluorescent lime background material and two inch silver reflective stripes meet ANSI 107 Class 3 requirements for high visibility protection. It also meets the ASTM F1891 Standard Specification for Arc and Flame Resistant Rainwear and ASTM F2733 Standard Specification for Flame-Resistant Rainwear for Protection against Flame Hazards. The BJ238JH achieves an HRC2 / CAT2 ARC rating with an Arc Thermal Performance Value (ATPV) of 11 cal/cm2. Be seen and be safe in MCR Safety's Big Jake FR rainwear.

FEATURES:

- Flame resistant PVC / Nomex® rainwear
- Meets ANSI 107 Class 3 High Visibility Standards
- Conforms to ASTM F1891 Standard Specification for Arc and Flame Resistant Rainwear
- Meets ASTM F2733 Standard Specification for Flame-Resistant Rainwear for Protection Against Flame Hazards
- NFPA 70E with an Arc Thermal Performance Value (ATPV) of 11 cal/cm2
- Sturdy zipper front with large storm flap
- Cape ventilated back with D-Ring access
- Two inch Silver FR reflective stripes
- Two front patch pockets
- Adjustable / attached drawstring hood
- Adjustable hook and loop wrist

APPLICATIONS:

Oil and Gas Industry, Petrochemical industries, Utilities, Airport
, Construction
