EBP1 Boots

Specification Sheet

PRODUCT DESCRIPTION:

MCR Safety has you covered when in need of foot protection. The EBP1 boot is made from a durable black EVA foam material that will provide you with an extremely lightweight and comfortable boot option. As a matter of fact, EVA boots weigh 60 percent less than equivalent PVC or rubber boots! EVA foam also helps regulate temperatures inside the boot better than PVC boots. The EBP1 is an unlined boot that features a plain toe and treaded soles that provide additional grip in muddy wet conditions. A generous kick off lug on the back of each boot aids the wearer when removing the boots. Available in sizes 7-13. Boot height ranges from 12 inches for size 7 to 13.5 inches for size 13. If you are looking for the best waterproof boot options, search no further than MCR Safety!
