Specification Sheet

PRODUCT DESCRIPTION:

These durable nitrile gloves contain no latex proteins and offer excellent resistance to punctures and tears. Nitrile gloves are three times more puncture resistant than rubber and can be used to offer superior resistance to many types of chemicals. This glove is an excellent alternative for individuals who experience allergic reactions to latex. The 5380 NitrShield™ glove with MAX-Bio Technology is an unlined biodegradable nitrile glove that is 8 mil in thickness and 12 inches long. It features a straight thumb, raised diamond grip, and a straight cuff. The component materials comply with all federal regulations for food contact. If you are searching for the best nitrile gloves, look no further than MCR Safety!

FEATURES:

- 8 mil green unlined nitrile gloves
- Biodegradable with MAX-Bio Technology
- Extra long 12 inch straight cuff
- FDA compliant materials - Component materials comply with all federal regulations for food contact
- Raised diamond grip patterned palm, fingers and thumb
