9400KM

String Knit Specification Sheet

PRODUCT DESCRIPTION:

Most terry cloth is made with cotton because the absorbent fiber gets stronger when wet and it can be sanitized in very hot water using strong bleach and detergent without harm. Cotton terry cloth can absorb up to 27 times its own weight in water. Terry cloth also provides excellent thermal properties. Terry cloth is most often used for light heat applications in the industrial market. The 9400KM is an 18 oz seamless regular weight terry glove that is made of a cotton/polyester blend. Large size.

FEATURES:

- 18 oz. Loop-Out Cotton/Polyester blend
- Provides comfort and warmth
- Provides maximum absorbency
- Provides basic abrasion and heat protection

APPLICATIONS:

Bakeries, Cold storage applications, Food service, Stamping
