# 9416KM

**String Knit  
Specification Sheet**

**PRODUCT DESCRIPTION:**

Most terry cloth is made with cotton because the absorbent fiber gets stronger when wet and it can be sanitized in very hot water using strong bleach and detergent without harm. Cotton terry cloth can absorb up to 27 times its own weight in water. Terry cloth also provides excellent thermal properties. Terry cloth is most often used for light heat applications in the industrial market. The 9416KM is a black 16 oz. regular weight terry glove that is made of a cotton/polyester blend. It features loop-in material and is seamless, reversible, and has a knit wrist. 9416KM is size small.

**FEATURES:**

- Black Terrycloth Material, 16 oz. regular weight
- Provides comfort and warmth
- Loop-in, Seamless and reversible
- Cotton/Polyester blend
- Resistant to abrasion and heat
- Size Small

**APPLICATIONS:**

Bakeries, Cold storage applications, Stamping
