9676 UltraTech Cut Protection Specification Sheet

PRODUCT DESCRIPTION:

One of the most distinguishing DSM Dyneema® characteristics is its cool-to-touch property. DSM Dyneema® fiber's inherent ability to dissipate body heat and pass moisture from inside of the glove to the outside, results in longer wear time which promotes greater hand protection. The 9676 UltraTech Dyneema® glove features a 13 gauge certified DSM Dyneema® blended shell with PU coated palm and fingers. The 9676 carries a CE score of 4343 and CPPT cut level of 2. Our Honey Grip® string knit line is coated with uncured PVC in a honeycomb pattern to provide you with a strong grip. Grab hold to work with these and you want let go. The 9676MM features a 7 gauge gray cotton/polyester shell coated with uncured clear PVC in a honeycomb pattern.

FEATURES:

- 13 Gauge Certified DSM Dyneema Salt & Pepper Blended Shell
- Gray PU Coated Palm and Fingers
- CE 4343
- CPPT Level 2 - 520 Grams

APPLICATIONS:

Automotive Assembly, Farming, Landscaping, Carpentry, Glass handling, HVAC, Janitorial, Sheet metal industry, Roofing
