FF2931 ForceFlex Mechanics Gloves Cut Protection

PRODUCT DESCRIPTION:

MCR Safety is proud to expand the ForceFlex® line of gloves. We are the first to offer D3O® technology protection both in the palm and back of hand in mechanics gloves. The D3O® hi-shock absorbing properties out-performs similar materials and is thinner allowing full flexibility and range of motion. Testing endorses:

Back of hand impact dissipation up to 54% better while 57% thinner

Impact dissipation on fingers up to 46% better while 37% thinner

Our FF2931 ForceFlex® series was created in the oil and gas fields specifically to provide greater grip in dry, wet, and oily conditions. Distinguishing characteristics include two-way spandex back, hybrid forchettes and reinforced thumb crotch for greater durability, Hypermax™ lined to achieve a cut level of A5, and expansion gussets for ease of donning. Additional features are the slip-on cuff with gusset, pull tab and ID panel for personalization.
