VP9460K

Red Brick

**String Knit
Specification Sheet**

PRODUCT DESCRIPTION:

Most terry cloth is made with cotton because the absorbent fiber gets stronger when wet and it can be sanitized in very hot water using strong bleach and detergent without harm. Terry cloth is usually made with looped pile because the loops act like very small sponges. Looped pile is also better able to withstand the strain of rubbing, pulling twisting and tugging by the user. Loosely twisted loops are softer and more absorbent than tightly twisted loops, which produce a rougher fabric. Long pile is more absorbent than short pile. The Red Brick features 2-ply cotton loop-in terry cloth with nitrile blocks on both sides. (Non-Vending packaged item - 9460K).

FEATURES:

- Heavy weight 2-ply Terry Cloth
- 100% Cotton Shell
- 2-sided Nitrile Blocks

APPLICATIONS:

Bakeries, Cafeteria, Cold storage applications, Construction, Manufacturing

TECHNICAL DATA FOR: VP9460K

Series	Red Brick
Material Group	Cotton
Product Type	String Knit
Glove Size	Large
Material	Terrycloth
Features	Loop-In
Pattern	Reversible
Thumb Style	Straight
Made In	Pakistan
