

Exclusive TPR two color design

Allows user maximum hand mobility, while also preventing knuckles from being cut, scrapped and busted up. Don't get caught not wearing the proper PPE! In 2017, over 200,000 recordable hand injuries were attributed to "struck by" and "caught between" objects.

Slip on cuff with pull tab and ID panel for personalization

Easily distinguish your pair from everyone else's on the rig!

Premium goatskin leather palm

Tactile leather material delivers ultimate comfort, true feel and optimal handling of parts and tools; while also reducing hand fatigue.

2-Way, Hi-Vis orange spandex back

Hi-Vis color provides excellent contrast against everyday work environment. Ensures visual identification in low-light environments.

Cut level A5 protection

Palm lined with DSM Dyneema® Diamond Technology which offers ANSI A5 Cut protection while keeping your hands cool for all day comfort

Sonic welded TPR

Offers increased comfort on the back of the hand vs. sewn TPR which causes irritation

Reinforced thumb crotch

Additional protection for heavy-duty wear and tear when handling heavy tools, pipe and rigging. Ensures added durability and longevity!
