

13-Gauge cut resistant HPPE seamless shell
Ensures the highest-level dexterity with cut protection.

Exclusive TPR two color design
Being seen is critical whether on an oil rig, shop floor, or construction site! TPR design and vibrant palm color clearly distinguishes wearer from work environment.

Full back of hand protection
Delivers maximum protection for the back of hand, knuckles and fingers!

Sonic welded TPR
Offers increased comfort on the back of the hand vs. sewn TPR which causes irritation

Cut level A4 protection
Grip with confidence next time you are handling heavy iron, jagged material and sharp metal!

Cut and impact protection
Gloves address 76% of all yearly hand injuries due to Cut and Crush hazards. – NSC.org

Nitrile Foam coated palm and fingers
Provides the best hand tool operation in slick conditions; examples include drilling fluids, water-based mud, hydraulic oil, gear oil, grease. No more worrying about that wrench slipping and getting your hands banged up!
