

MCR Safety Supports Sustainability

We produce our Ninja® range of premium safety gloves to help protect the hands of the workers of the world. But we're also stepping up to do our part in helping to protect the world itself. **By replacing virgin with recycled paper wherever we can, and reducing the thicknesses of our shipping and packaging materials, we're helping to reduce our carbon footprint and waste impact on the world.**

| | Master Card | Hang Tag | Carton | Polybags |
|-----------------------------|--------------------------------|------------------------------------|--|----------------------|
| Previous Material | 350 GSM Virgin Paper | 350 GSM Virgin Paper | 5 PLY 100% Virgin Paper | 50-60 Micron LDPE |
| Sustainable Material | 300 GSM Brown Recycled Card | 300 GSM Brown Recycled Hang Tag | 5PLY 80% Virgin Paper 20% Recycled Paper | 30 Micron LDPE |

| | per 100,000 dozen pairs | % saved |
|--|------------------------------|------------|
| Reduction in paper consumption | 14,310 kg 340 trees saved | 83% |
| CO ₂ absorbed by trees left standing | 2,290 kg | 83% |
| CO ₂ emissions reduction during packaging production | 3,000 kg | 50% |
| Plastic reduction (from 60 to 30 microns) | 500 kg | 50% |

**Like your
two hands,
this planet
is the only
one we have.**
